## **Welcome to the HCII at Carnegie Mellon University.**

While this handbook is specific to your MHCI academic experience with the HCII and the School of Computer Science, there are several other resources and offices graduate students are encouraged to consult during their tenure at Carnegie Mellon University.

Information about The Word, the student handbook, the Office of Graduate and Postdoc Affairs, the Office of the Dean of Student Affairs and others are included in Appendix A of this handbook.

**Welcome** to the Master of HCI program, the HCI Institute, Carnegie Mellon University and the city of Pittsburgh! We are all very excited to have you join us as part of our 29th entering class of MHCI students. You are joining a vibrant, collaborative and multidisciplinary community with over 400 faculty, staff, students, post-doctoral fellows and visitors whose focus is HCI. The HCI Institute was founded in 1993 and graduated its first class of master's students in the spring of 1994. Since then, the program has graduated over 1200 students who have gone on to wonderful careers in industry and academia, at places both large and boutique, and everything in between.

The MHCI program is a vital piece of the HCII's educational mandate and has helped the HCII become the center of HCI education and research worldwide with its unique interdisciplinary culture, the rigorous capstone project, and an enriching combination of both theory and practice. Our students work very hard in leveraging all these strengths during their time here and leave with the skills to design, develop, study, and manage the use of novel systems and interfaces that we will all be using in the years to come. We are thrilled to welcome you into our family and are excited to get to know you!

*--Brad A. Myers, Charles M. Geschke Director and Professor, Human-Computer Interaction Institute*

## Introduction to the HCII Mission

There is more to computer science than just the machines, which is why **we put the humans first**.

## Our Beginnings

In a 1967 letter to *Science* entitled "What is Computer Science?," Allen Newell, Herbert A. Simon, and Alan J. Perlis wrote that the new discipline of computer science should include the study of the phenomena surrounding computers, not just the theory and design of the computation devices themselves.

Their forward thinking and broad definition of computer science paved the way for Carnegie Mellon scholars to be thought leaders in this field. Long before we all carried tiny touchscreen computers in our pockets, CMU opened its first user studies lab in the 1980s, offered its first human-computer interaction course in 1993, and a committee of interdisciplinary faculty founded the Human-Computer Interaction Institute the following year. At the time, our institute brought people from the seemingly unrelated fields of computer science, design, behavioral and social sciences together in a new way.

## HCII Today

It's hard to believe that over a quarter century has now passed since our earliest days in Wean Hall. With technology now a ubiquitous part of our daily lives, the human-computer interaction discipline is well established and arguably more important than ever.

As the HCII continues to grow, our footprint has expanded beyond three floors of Newell-Simon Hall to several other buildings on campus. Learn more about our [People](#), [Centers and Labs](#), and [Facilities](#).

## Academic Programs

Our [Master's in HCI program](#) was the first in the world dedicated to preparing professionals for careers in user-centered research and UX design. We are proud to have graduated more than 1,200 alumni who have gone on to make an impact in education and industry.

Today, we offer [undergraduate](#), [master's](#) and [Ph.D.](#) programs in HCI that span a full cycle of knowledge creation.

## HCI Research

In addition to teaching the next generation of HCI professionals, our [faculty](#) conduct [interdisciplinary research](#) with colleagues at CMU and around the world. Learn more about [Doing Research with Us](#).

## Our Vision

At the HCI Institute, we are dedicated to connecting thought leaders in computer science, design, behavioral and social sciences in order to develop human-centered software, services and systems that improve people's lives through technology.

Our collaborative and interdisciplinary nature connects us with faculty and students in the [School of Computer Science](#), [Dietrich College of Humanities and Social Sciences](#), [Tepper School of Business](#), [College of Fine Arts](#), [College of Engineering](#) and the [Software Engineering Institute](#).

## Our Mission

- To apply rigor and creativity consistently and pervasively
- To infuse HCI methods appropriately across CMU and beyond
- To push the boundaries of problems HCI addresses
- To expand the tools and methods we use to address those problems
- To deliver artifacts, services, and systems that improve people's lives
- To always remember that people are at the heart of our work

## Carnegie Mellon University (<https://www.cmu.edu/about/mission.html> )

### Vision

Carnegie Mellon University will have a transformative impact on society through continual innovation in education, research, creativity, and entrepreneurship.

### Mission

To create a transformative educational experience for students focused on deep disciplinary knowledge; problem solving; leadership, communication, and interpersonal skills; and personal health and well-being.

To cultivate a transformative university community committed to (a) attracting and retaining diverse, world-class talent; (b) creating a collaborative environment open to the free exchange of ideas, where research, creativity, innovation, and entrepreneurship can flourish; and (c) ensuring individuals can achieve their full potential.

To impact society in a transformative way — regionally, nationally, and globally — by engaging with partners outside the traditional borders of the university campus.

## University Policies & Expectations

It is the responsibility of each member of the Carnegie Mellon community to be familiar with university policies and guidelines. In addition to this departmental graduate student handbook, the following resources are available to assist you in understanding community expectations:

- The Word/Student Handbook: [www.cmu.edu/student-affairs/theword//index.html](http://www.cmu.edu/student-affairs/theword//index.html)
- Academic Integrity Website: <https://www.cmu.edu/policies/student-and-student-life/academic-integrity.html>
- University Policies Website: [www.cmu.edu/policies/](http://www.cmu.edu/policies/)
- Office of Graduate and Postdoc Affairs: <http://www.cmu.edu/graduate/policies/index.html>

Please see Appendix A for additional information about The Word and University resources.

## Carnegie Mellon University Statement of Assurance

Carnegie Mellon University does not discriminate in admission, employment or administration of its programs or activities on the basis of race, color, national origin, sex, handicap or disability, age, sexual orientation, gender identity, religion, creed, ancestry, belief, veteran status or genetic information. Furthermore, Carnegie Mellon University does not discriminate and is required not to discriminate in violation of federal, state or local laws or executive orders.

Inquiries concerning the application of and compliance with this statement should be directed to the university ombudsperson, Carnegie Mellon University, 5000 Forbes Avenue, Pittsburgh, PA 15213, telephone 412-268-1018. Obtain general information about Carnegie Mellon University by calling 412-268-2000.

Carnegie Mellon University publishes an annual campus security and fire safety report describing the university's security, alcohol and drug, sexual assault and fire safety policies, and containing statistics about the number and type of crimes committed on the campus, and the number and cause of fires in campus residence facilities during the preceding three years. You can obtain a copy by contacting the Carnegie Mellon Police Department at 412-268-2323. The annual security and fire safety report also is available online at [www.cmu.edu/police/annualreports](http://www.cmu.edu/police/annualreports).

Information regarding the applicable grievance procedures for alleged violations of the Statement of Assurance is available at <https://www.cmu.edu/policies/forms-and-documents/soa-violations.pdf>.

The Office for Institutional Equity and Title IX may be reached at 412-268-7125 or <https://www.cmu.edu/title-ix/>.

## The Carnegie Mellon Code

Students at Carnegie Mellon, because they are members of an academic community dedicated to the achievement of excellence, are expected to meet the highest standards of personal, ethical and moral conduct possible.

These standards require personal integrity, a commitment to honesty without compromise, as well as truth without equivocation and a willingness to place the good of the community above the good of the self. Obligations once undertaken must be met, commitments kept.

As members of the Carnegie Mellon community, individuals are expected to uphold the standards of the community in addition to holding others accountable for said standards. It is rare that the life of a student in an academic community can be so private that it will not affect the community as a whole or that the above standards do not apply.

The discovery, advancement and communication of knowledge are not possible without a commitment to these standards. Creativity cannot exist without acknowledgment of the creativity of others. New knowledge cannot be developed without credit for prior knowledge. Without the ability to trust that these principles will be observed, an academic community cannot exist.

The commitment of its faculty, staff and students to these standards contributes to the high respect in which the Carnegie Mellon degree is held. Students must not destroy that respect by their failure to meet these standards. Students who cannot meet them should voluntarily withdraw from the university.

The Carnegie Mellon Code can also be found on-line at:

<https://www.cmu.edu/student-affairs/theword/>

Due to the changing nature of conditions and expectations surrounding public health and safety requirements please visit [www.cmu.edu/coronavirus/](http://www.cmu.edu/coronavirus/) for the most up to date information.

## MHCI Administrative Team

Skip Shelly, Director, MHCI, [sshelly@andrew.cmu.edu](mailto:sshelly@andrew.cmu.edu)  
Room 201 @ 3SC

Nicole Willis, Director of MHCI Student Affairs, [nmwillis@andrew.cmu.edu](mailto:nmwillis@andrew.cmu.edu)  
Room 209 @ 3SC  
phone: 412.268.7971

Jennifer McPherson, MHCI Operations Manager, MHCI, [jmcperson@cs.cmu.edu](mailto:jmcperson@cs.cmu.edu)  
Room 206 @ 3SC  
Phone: 412.268.5903

Cameil Ruffing, Administrative Coordinator II, MHCI, [cruffing@andrew.cmu.edu](mailto:cruffing@andrew.cmu.edu)  
Room 206 @ 3SC  
phone: 412.268.2906

Jessica Vogt, Engagement Manager, MHCI, [vogtj@cmu.edu](mailto:vogtj@cmu.edu)  
Room 201 @ 3SC

### MHCI Administration office location at 3SC

300 S. Craig Street 2<sup>nd</sup> Floor // 412-268-9433 fax

### Mailing Packages to the MHCI

Student Name (replace with your name)  
c/o Cameil Ruffing  
300 S. Craig Street Room 206  
Pittsburgh, PA 15213

### HCII DIRECTOR'S OFFICE CONTACTS

Brad Myers, Charles M. Geschke Director and Professor, HCII, [bam@cs.cmu.edu](mailto:bam@cs.cmu.edu)  
Carolyn Buzzelli-Stumpf, Assistant to Director, HCII, [cbstumpf@andrew.cmu.edu](mailto:cbstumpf@andrew.cmu.edu)

Faculty: See complete listing at <http://hcii.cmu.edu/people/faculty>

### OTHER IMPORTANT CMU CONTACTS

Counseling & Psychological Services, 412-268-2922, 2<sup>nd</sup> Floor Morewood Gardens E-Tower  
Career and Professional Development Center:

Kate Livingston, [kjliving@andrew.cmu.edu](mailto:kjliving@andrew.cmu.edu) and Tess Elford, [telford@andrew.cmu.edu](mailto:telford@andrew.cmu.edu)

Angie Lusk, Student Affairs Liaison, [alusk@andrew.cmu.edu](mailto:alusk@andrew.cmu.edu)

Office of Graduate and Postdoc Affairs, [graded@andrew.cmu.edu](mailto:graded@andrew.cmu.edu)

*\*\*For more information on these and other student services, please see Appendix A.*

### **Academic Advising**

MHCI students should make academic advising appointments with Nicole Willis, Director of MHCI Student Affairs who serves as the academic advisor for the MHCI and AMHCI programs.

Appointments may be scheduled via <https://nicolewillismhci.youcanbook.me>

All enrollment plans, elective approvals and overload requests must be directed to the Director of MHCI Student Affairs, Nicole Willis, [nmwillis@andrew.cmu.edu](mailto:nmwillis@andrew.cmu.edu) . May be requested to Nicole Willis for Fall and Spring if in good academic standing. Maximum unit request for an overload is 69 units.

### **Academic Calendar**

The Academic Calendar can be found at <https://www.cmu.edu/hub/calendar/index.html> and provides information on all deadlines including registration dates, class start dates, add/drop deadlines, exam dates and more.

### **Registration Procedures**

Registration is handled through Student Information Online (SIO). Students are responsible for enrolling themselves in required courses and electives. <http://www.cmu.edu/hub/sio>

Students should review the appropriate MHCI curriculum in this handbook. For electives in the semester for which the student wishes to register, they must confer with the Director of MHCI Student Affairs to determine an appropriate course. The Director of MHCI Student Affairs consider exceptions to the curriculum only after consultation.

Once students have decided on a course schedule, they can then access SIO, using any computer, by visiting the website at: <http://www.cmu.edu/hub/registration/graduates/>

**Auditing:** Not permitted in the MHCI program.

### **Drop/Add/Withdraw procedures**

Students taking undergraduate and Master's level courses must follow the procedures and deadlines for adding, dropping, or withdrawing from courses as identified on the academic calendar. Information can be found at <https://www.cmu.edu/hub/registrar/course-changes/index.html> There is a separate calendar for doctoral level courses.

### **Full Time Status**

At Carnegie Mellon University a minimum of 36 units is required for full time status. All international students are required to be full time students to maintain proper Visa status, which means being enrolled in 36 units or more each semester.

### **Qualifying Examinations and Thesis:**

There are no qualifying examinations or master's thesis required for the MHCI degree.

## **Financial Support**

HCII does not offer financial support for this professional master program. The HUB Financial Services has information on financial aid resources available to students pursuing graduate studies at CMU: <https://www.cmu.edu/sfs/financial-aid/graduate/index.html>

## **Verification of Enrollment**

Enrollment Services is the only University office that can provide an official letter of enrollment, official transcript and enrollment verification. Enrollment verification can be requested online through The HUB at: <https://www.cmu.edu/hub/registrar/student-records/verifications/enrollment.html>

## **Graduate Certification Process and Degree Title**

MHCI degrees are posted in the semester that work is completed.

The degree title that will appear on the diploma is ***Master of Human-Computer Interaction***. The degree letters are **MHI**.

## **Total Number of Units Required for Degree Attainment**

- Standard Curriculum: 156 -168
- Accelerated Master's Program: 90 – 102

## **Degree Attainment**

***Program Outline: 7 Core Courses, 4 Electives and 1 place out requirement***

### **Place out Requirements:**

#### **Prior Knowledge**

Students entering the MHCI program are expected to have a basic background in each of the areas of programming. This background is obtained through undergraduate level courses and/work experience. All prerequisites must be reviewed and approved by the Program Directors before the student will be credited with having fulfilled that prerequisite. This place out process takes place after admission and before Fall matriculation.

#### **Knowledge of Programming**

Proficiency in a programming language such as C, programming methodology and style, problem analysis, program structure, algorithm analysis, data abstraction, and dynamic data. Normally met through an introductory course in programming in C, C++, Pascal or JAVA, that requires the student to write programs of about 300-lines of code from scratch.

## **Graduation Requirements**

It is ultimately the responsibility of the students to ensure that all courses necessary for graduation have been successfully completed. Faculty and staff are available to assist students, and the Program Directors will attempt to advise students individually each semester, but only students can be held responsible for their failure to complete graduation requirements. Failure to meet the requirements of each semester will result in a student being placed on academic probation. Failure to meet the degree requirements prevents a student from receiving their diploma and may prevent a student from graduating at all.

While the MHCI curriculum is subject to change, the curriculum in effect at the time of a student's matriculation will be the one that dictates their graduation requirements. Exception to this policy will be at the discretion of the Program Directors.

## **Policies and procedures guiding degree progress (NEWLY APPROVED for implementation AY22-23)**

### ***Standard Degree Requirements & Degree Certification***

#### **GRADUATE STUDENTS**

Carnegie Mellon graduate students are expected to complete their degree requirements within the standard length of time for their program of study as outlined in the relevant Graduate Student Handbook. Standard program lengths for graduate students vary significantly – ranging from two semesters for some full-time master's programs to several or more years for doctoral programs. Upon completion of the graduate program degree requirements, the degree will be certified by the student's academic program in the semester in which the student completes the requirements.

#### **Early Completion**

Graduate students who consider the completion of all degree requirements in less than the standard length of time for their program of study may consult with their degree-granting program or department to determine if early degree certification is allowed and under what circumstances.

#### **Extended or Longer-than-Standard Completion**

Longer-than-standard degree completion may occur due to academic interruptions in making progress toward the degree as defined by the academic program, interruptions of full-time study or progress towards the degree due to serious, documented medical issues, or other unusual or unforeseen circumstances.

Master's students who require longer than the standard time to complete their degree requirements are expected to remain in close contact with their graduate program and will be certified at the end of the semester in which they have completed their degree requirements. Students shall reference CMU Policy on Master's Student Statute of Limitations ([www.cmu.edu/policies/student-and-student-life/masters-students-statute-of-limitations.html](http://www.cmu.edu/policies/student-and-student-life/masters-students-statute-of-limitations.html)) regarding guidelines and restrictions which place an upper limit on the maximum length of time allowable for master's degree completion and certification.

## Additional Guidance for Students

**Program of study.** Students seeking guidance about their program of study and degree requirements should consult with their academic advisor and/or appropriate associate dean.

**Financial aid and student account.** Students are expected to make normal progress toward their degree in order to graduate within the standard timeframe for their program of study. Under U.S. Federal Title IV regulations, student eligibility for federal financial aid is contingent upon enrollment in and successful completion of courses that are counted as credit toward their current degree program. To receive the maximum amount of federal financial aid for which they may be eligible, students must enroll each semester in at least 36 units that count toward their current degree level. (See separate guidance regarding integrated degree completion.)

Students should consult with their designated college liaison in The HUB regarding billing and financial aid, particularly for early completion, longer-than-standard completion, or integrated undergraduate and master's degree programs.

**International students.** Immigration status for students in F-1 and J-1 non-immigrant status is tied to making normal progress toward completing degree requirements. Therefore, F-1 and J-1 students who are considering completing their degree requirements early, anticipating longer-than-standard completion, or moving from an undergraduate to a graduate student classification (integrated undergraduate-graduate study) should consult with their designated advisor in the Office of International Education (OIE) to ensure compliance with immigration regulations.

## Accelerate Master of Human-Computer Interaction (AMHCI)

In order to be eligible for consideration for the Accelerated Master of Human-Computer Interaction Program, students must:

- be CMU undergraduates in the BS in HCI major or HCI additional major (*HCI minors and HCI concentrations are not eligible*)
- have completed the following appropriate courses
  - three HCI Core courses (05-410: UCRE; 05-651: IXDS 1\*; and 05-430: PUI)\*\*
  - an elective in the 400 level or above
- have completed the online application by the fall deadline of their senior year.

\*05-360 IxDF replacing 05-651 IXDS1 as of Fall 2023

\*\*05-431 SSUI or 05-380 PAX are accepted in place of 05-430 PUI

Note: This academic regulation will be in effect for first- and second-year students starting in the 2022-23 Academic Year and can offer helpful guidance and insights for third- and fourth-year students, as well as fifth-year architecture students.

The integration of bachelor and master's degree programs ("IBM" programs) benefits CMU students who elect to maximize their use of time and academic energy to blend their undergraduate studies with master's-level study in close combination, in an integrated program of study at CMU. Some CMU departments and programs have developed integrated options for students in response to student desires for such opportunities and to enliven their graduate programs with students who are well-acclimated to the rigor and demands of the CMU educational experience.

### **General Information for AMHCI**

Carnegie Mellon students in integrated bachelor-master's programs are expected to complete their degree requirements within a standard length of time for their full-time program of study as outlined in the Undergraduate Catalog and relevant Graduate Student Handbook. This document describes several standard models for the CMU integrated bachelor-master's degree programs, some of which involve acceleration of either the undergraduate or the graduate degree component (or both) within the integrated program designs. Each CMU integrated program offers specific, pre-determined model(s) of integrated study reflecting one of the following:

- 4+0 meaning that a student will complete both undergraduate and master's degree coursework in eight semesters (four years) of full-time study. This model generally applies when the undergraduate and graduate field of study are the same, such as an undergraduate and master's degree in Chemistry or Mathematics.
- 3-1-1 meaning three years of full-time undergraduate coursework, followed by one year of integrated undergraduate and graduate study, and one year of exclusively master's level coursework for a total of five years of full-time study. An example would be undergraduate degrees integrated with Heinz College or Tepper graduate degree programs. The undergraduate degree generally is completed in eight semesters of full-time study (or less.)
- 4+1 semester meaning eight semesters (four years) of full-time undergraduate coursework including integration of some master's level courses, followed by one semester of exclusively master's level coursework for a total of four and a half years. The undergraduate degree generally is completed in eight semesters of full-time study (or less.)
- 4+2 semesters meaning eight semesters (four years) of full-time undergraduate coursework including integration of some master's level courses, followed by two semesters of exclusively master's level coursework for a total of five academic years. The undergraduate degree is completed in eight semesters of full-time study (or less.)
- 4+3 semesters meaning eight semesters (four years) of full-time undergraduate coursework including integration of some master's level courses, followed by three semesters of exclusively master's level coursework for a total of five and a half academic years. The undergraduate degree is completed in eight semesters of full-time study.

- 5+1 for architecture meaning five years of Bachelor of Architecture (B.Arch.) undergraduate coursework followed by two semesters of full-time master's level coursework for a total of six academic years. The B.Arch. undergraduate degree generally is completed in 10 semesters.

The standard undergraduate program of study is grounded in a primary degree and its requirements and may be complemented by an additional major(s) or minor(s) as part of the academic plan. Some students decide to apply for one of CMU's several integrated degree programs to complement their undergraduate degree with an integrated or accelerated master's degree. Depending on the model of the integrated program, when an undergraduate student applies to an IBM program, they recognize that the standard for undergraduate study will be eight semesters (or 10 for B.Arch.), plus one, two, three or four additional semesters of full-time graduate-level study (except for the 4+0 model, above) to complete the master's degree.

CMU students in most IBM programs are considered to be undergraduates until they have completed the requirements for their bachelor's degree at which point, they are certified by their undergraduate academic program; this typically occurs at the time determined to be the standard for their integrated program following a successful seven or eight semesters (or 10 for B.Arch.) of full-time enrollment, depending on the design of their integrated program. However, in one rare model, the integrated program design holds the bachelor's degree certification to be given concurrently with the master's degree in the ninth or tenth semester of full-time enrollment.

**Early completion of undergraduate degree.** An IBM student who has completed all undergraduate degree requirements in fewer than the standard number of semesters for their program may request an early undergraduate degree certification from their undergraduate program, in close consultation with their academic advisor(s). This situation, while possible, is not common due to the necessity of staying on track for both undergraduate and master's degree programs in an integrated manner.

Movement from undergraduate to graduate student classification. Students in an IBM program who are certified as having completed their undergraduate degree – typically in the number of semesters that is the standard for their integrated program – then will be classified as a graduate student at CMU and are expected to complete their graduate degree requirements within the standard length of time for their integrated program of study. Students should be aware of and plan for financial implications, including financial aid, and/or F-1/J-1 non-immigrant implications due to the change of level when moving from undergraduate student status to graduate student status at CMU. (See details below.) The standard for the graduate component of the IBM student/program. Upon completion of the graduate program degree requirements in the standard period of study, the graduate degree will be certified in the semester in which the student completes the requirements by the student's graduate program.

**Early completion of the graduate degree requirements.** \* Graduate students who consider the completion of all degree requirements in less than the standard length of time for their program of study must consult with their degree-granting program or department to determine if early degree certification is allowed academically and under what circumstances. *\*Not a common allowance in MHCI.*

**Incomplete graduate degree requirements.** In some cases, students in an IBM program may withdraw from the graduate component of the program of study and, therefore, will not be certified or awarded the graduate degree. Any such withdrawal decision also may require close consultation with the undergraduate advisor to determine eligibility for undergraduate degree completion and certification if the undergraduate degree is not already certified.

**Extended or longer-than-standard graduate degree completion.** Longer-than-standard degree completion may occur due to academic interruptions in making progress toward the degree as defined by the academic program, interruptions of full-time study or progress toward the degree due to serious, documented medical issues, or other unusual or unforeseen circumstances.

IBM students who require longer than the standard time to complete their graduate degree requirements are expected to remain in close contact with their graduate program and will be certified at the end of the semester in which they have completed their degree requirements. Students shall reference CMU Policy on master's Student Statute of Limitations ([www.cmu.edu/policies/student-and-student-life/masters-students-statute-of-limitations.html](http://www.cmu.edu/policies/student-and-student-life/masters-students-statute-of-limitations.html)) regarding guidelines and restrictions which place an upper limit on the maximum length of time allowable for master's degree completion and certification.

**Additional Guidance for Students Program of study.** Students seeking guidance about their program of study and degree requirements should consult with their academic advisor and/or appropriate associate dean.

**Financial aid and student account.** Students are expected to make normal progress toward their degree in order to graduate within the standard timeframe for their program of study. Under U.S. Federal Title IV regulations, student eligibility for federal financial aid is contingent upon enrollment in and successful completion of courses that are counted as credit toward their current degree program. To receive the maximum amount of federal and state financial aid for which they may be eligible, students must enroll each semester in at least 36 units that count toward their current degree level. CMU institutional undergraduate grants support undergraduate degree completion and on-time graduation; institutional undergraduate grants for students in undergraduate programs and in IBM programs are renewable for eight semesters (and 10 for B.Arch.).

Students should consult with their designated college liaison in The HUB regarding billing and financial aid, particularly for early completion, longer-than-standard completion, or integrated bachelor and master's degree programs.

**International students.** Immigration status for students in F-1 and J-1 non-immigrant status is tied to making normal progress toward completing degree requirements. Therefore, F-1 and J-1 students who are considering completing their degree requirements early, anticipating longer-than-standard completion, or moving from an undergraduate to a graduate student classification (integrated undergraduate-graduate study), should consult with their designated advisor in the Office of International Education (OIE) to ensure compliance with immigration regulations.

## Curriculum and Graduation Requirements

The MHCI program is a one-year professional graduate program with pre-defined curriculum choices and no thesis requirement. Once admitted to the MHCI program, students can complete the degree on a full-time basis in twelve consecutive months beginning in the fall term and continuing through the spring and summer terms.

Part-time students typically finish the degree in 2 years **Note: students must be enrolled as full-time students during the last summer term.** No courses taken prior to admission to the MHCI program can be counted toward the degree requirements. You will take courses to obtain a broad background in computer science, human behavior, design, user-centered research and evaluation, and you may elect to take more advanced courses to deepen your knowledge in a more specific area.

### Full-Time Sample Study Plan:

Fall	Spring	Summer
<ul style="list-style-type: none"> <li>• 05-600 HCI Pro Seminar</li> <li>• 05-610 UCRE</li> <li>• 05-660 Interaction Design Fundamentals</li> <li>• 05-630 PUI with lab or 05-631 SSUI with lab</li> <li>• Elective 1</li> </ul>	<ul style="list-style-type: none"> <li>• 05-671 HCI Project I</li> <li>• Advanced Design Course 2</li> <li>• Elective 2</li> <li>• Elective 3</li> <li>• Elective 4</li> </ul>	<ul style="list-style-type: none"> <li>• 05-672 HCI Project II</li> </ul>

### AMHCI Sample Study Plan:

Spring is starting capstone with MHCI while completing undergraduate degree. Summer students become master level graduate students and continue capstone and final semester is the fall semester.

Spring	Summer	Fall
<ul style="list-style-type: none"> <li>• 05-671 HCI Project I</li> <li>• Complete BHCI undergrad degree</li> </ul>	<ul style="list-style-type: none"> <li>• 05-672 HCI Project II</li> <li>• Become Master student</li> </ul>	<ul style="list-style-type: none"> <li>• 05-600 HCI Pro Seminar</li> <li>• Elective 1</li> <li>• Elective 2</li> <li>• Elective 3</li> <li>• Elective 4</li> </ul>

**Part Time Study: (MHCI Program ONLY)**

Domestic students have the option to complete the program on a part-time basis. You will work with the Director of MHCI Student Affairs to set up an appropriate plan of study. Ideally students should be able to complete the degree within a period of two years by taking two courses per semester, including summers.

**During the summer HCI Project II course, students are required to enroll as full-time students, and should make the appropriate arrangements with their employers for leave.** Part-time students must also be aware that all HCI core courses are held during the day, so it is not possible to complete the degree as a night student. The following is a sample part-time plan that maintains the required course sequence:

<b>First Fall</b>	<b>First Spring</b>	<b>First Summer</b>
<ul style="list-style-type: none"><li>• 05-660 IxDF</li><li>• 05-630 PUI with lab or 05-631 SSUI with lab</li></ul>	<ul style="list-style-type: none"><li>• Advanced Design Course 2</li><li>• Elective 1</li></ul>	<ul style="list-style-type: none"><li>• Elective 2</li></ul>
<b>Second Fall</b>	<b>Second Spring</b>	<b>Second Summer</b>
<ul style="list-style-type: none"><li>• 05-600 HCI Pro Seminar</li><li>• 05-610 UCRE</li></ul>	<ul style="list-style-type: none"><li>• 05-671 HCI Project I</li><li>• Elective 3</li></ul>	<ul style="list-style-type: none"><li>• 05-672 HCI Project II</li><li>• Elective 4</li></ul>

## The Core Courses

*All students are required to take the following core courses and pass with a B or better:*

### **05-600 HCI Pro-Seminar: Communications in HCI**

Students will attend professional development workshops, industry/academic talks, conflict management workshops, and complete several writing assignments throughout the semester.

### **05-610 User-Centered Research & Evaluation (UCRE)**

This course provides an overview and introduction to the field of human-computer interaction (HCI). It introduces students to tools, techniques, and sources of information about HCI and provides a systematic approach to design. The course increases awareness of good and bad design through observation of existing technology, and teaches the basic skills of task analysis, and analytic and empirical evaluation methods.

### **05-660 Interaction Design Fundamentals**

IXD Fundamentals introduces the human-centered design process as well as fundamental interaction design principles, methods, and practices. The course is for both students who may only enroll in one interaction design course and those who intend to build upon their HCI learning by taking advanced interaction design courses. Students must work effectively as individuals and in small teams to learn interaction design concepts and apply them to real-world problems. This course serves as a prerequisite for Advanced Interaction Design Studio (05-661). Students who are required to take this course have priority and will be enrolled first. No coding is required.

### **05-661 Advanced Interaction Design**

This course follows Interaction Design Fundamentals (05-660). This is a new course being developed and description will be updated asap.

\*If a student selects to not do 05-661, they may use one of the following courses as their 2<sup>nd</sup> design course:

- 05-615 Persuasive Design
- 05-617 Design of AI Products
- 05-670 Digital Service Innovation
- 05-652 Service Design
- 05-899 Justice through Design
- + other design courses may be approved in the future

### **05-630 Programming Usable Interfaces (PUI)\***

This course combines lecture, and an intensive programming lab and design studio. It is for those who want to express their interactive ideas in working prototypes. It will cover the importance of human-computer interaction/interface design, iterative design, input/output techniques, how to design and evaluate interfaces, and research topics that will impact user interfaces in the future. We will cover several prototyping tools and require prototypes to be constructed in each, ranging from animated mock-ups to fully functional programs. There will be a basic

lab section, where students with a minimal programming background will learn how to design and program effective graphical user interfaces, and how to perform user tests. There will also be an advanced lab section for people with strong backgrounds in programming, where students will learn more about web programming in depth. Assignments will require implementing UIs, testing that interface with users, and then modifying the interface based on findings. Some class sessions will feature design reviews of student work. This course is for HCII Masters' students and HCI dual majors.

**PREREQUISITES:** Proficiency in a programming language, program structure, algorithm analysis, and data abstraction. Normally met through an introductory programming course using C, C++, Pascal or Java, such as 15100, 15112, 15127 or equivalent. Students entering this course should be able to independently write a 300-line program in 48 hours

### **05-631 Software Structures for User Interfaces (SSUI)\***

Software Structures for User Interfaces (SSUI) covers the basic and detailed concepts and principles that go into building software to implement user interfaces. It considers factors of input, output, application interface, and related infrastructure as well as the typical patterns used to implement them, and how these aspects are organized and managed within a well-structured object-oriented system. We will cover the libraries, design patterns, tools, and skills for a variety of “front-end” programming contexts, including conventional graphical user interface (GUI) programming for mobile apps (phones, watches and other wearables), web apps, and regular desktop applications, across a variety of programming languages and frameworks. We will briefly touch on programming for data-driven and conversational (AI) user interfaces (including speech and “chat bots”), front-end programming for visualizations, games, 3D, and virtual and artificial reality (VR and AR), along with interactive UI tools such as GUI builders, prototypers, and resource editors.

The homework and project in this course will involve extensive programming in JavaScript, so this course is only appropriate for students with a strong programming background. This content will be important for people with roles such as front end or full-stack developers, user experience engineers, design technologists, creative technologists, and HCI technical researchers. Please see <https://www.cs.cmu.edu/~bam/uicourse/05631fall2022/> for full information.

*\*The student and the Director of MHCI Student Affairs will jointly determine the choice lab section, based upon the student's previous programming experience.*

### **05-671 HCI Project I (15-unit spring course) 05-672 HCI Project II (48-unit summer course)**

Experiential learning is a key component of the MHCI program. Through a substantial team *capstone* project, students apply classroom knowledge in user research, design thinking, interaction design, prototyping and implementation and develop skills working in multidisciplinary teams. The project begins in the spring semester before graduation and continues full-time through the end of the final summer semester; it must be taken in consecutive spring and summer semesters.

The course number for spring is 05-671 and for summer 05-672.

## MHCI Electives

You may use the four (4) elective courses to design the program to your individual interests, background and goals. You may choose to broaden your experience by sampling courses from a variety of subject areas, or you may choose to concentrate in a particular specialized area. This will enable you to be the leader or sole practitioner representing that specialty in a multi-disciplinary development group. For a course to count toward the degree it must be taken for a letter grade.

Each elective course must be the equivalent of a full-semester (9 or 12 unit) course; two mini (half-semester) courses (6 units each) count as one elective. Elective courses must be different from any that you may have taken as part of the HCI core, and they cannot have counted toward a degree previously awarded by CMU.

Electives must be individually approved by the Director of MHCI Student Affairs, on a case-by-case basis for each student. Typically, graduate courses and 300- and 400-level courses in many departments are eligible for consideration. Because the MHCI program provides an opportunity for students to expand their education into areas they may not have previously explored, it is possible that a few 200-level courses may be considered for students really broadening their horizons (e.g., a design major may want to take the sophomore-level Fundamentals of Computer Science, an intense 200-level course for CS majors; this 200-level course could be considered for approval given this student's educational background). 100-level courses are typically considered to be non-appropriate.

Elective selection can start now, and the discussion will continue through the selection of your Spring electives. Remember, electives must be approved so be creative, be thorough and have an explanation for your choices.

## Independent Study/ Small Group Study: MHCI

Independent study course is when one student enters into an agreement with an HCII faculty to work on a specific project. Small group study is a course where a group of students enter into an agreement with an HCII faculty to work on a specific project.

<https://hcie.cmu.edu/academics/independent-study>

- Applications can be obtained from the HCII website.
- Students can work with any HCII Faculty for the 05-689 or 05-688 courses.
- An application with faculty signature and supporting documentation of project description and detailed timeline, including deliverables and milestones must be turned in before the end of registration period at the beginning of the semester. Exceptions may be made at the discretion of the MHCI Director of Student Affairs.
- Working in an Independent Study or Small Group Study is available during the Fall, Spring and the first part of Summer.
- No more than two (2) Independent Study courses may be approved/used as electives.
- To count towards the degree, the study course must be taken for a letter grade.

## GRADES AND CREDITS

**Elective Grades:** A failing grade for an elective is C- or lower. If a grade of C- or lower is earned, that course cannot be counted towards the degree and the student must either retake the course and earn a C or better, or take another course in its place. In order for a course to count toward the degree it must be taken for a letter grade.

**Core Course Grades:** A failing grade for a core course is a B- or lower. All core courses must be passed with a grade of B, 3.0, or higher to remain in good academic standing. If a student gets below a B in a core course after their first semester they will be placed on academic probation for a semester, and they will have to take the course again to obtain a B or higher. An MHCI student who gets below a B in any core course of the Fall semester will not be eligible for HCI Project I the following Spring semester. Not passing core courses in the Fall semester may lead a change in time to degree. The MHCI student will need to meet with the Director of MHCI Student Affairs to establish a plan of action for the Spring semester and the following year. This plan must be established in writing before the first day of Spring classes.

**NOTE:** International students should seek guidance from the Director of MHCI Student Affairs and the Office of International Education in the case of receiving failing grades.

## **Minimum grades and QPA's**

The minimum passing grade for core courses (including HCI Project I & II) is a B; the minimum passing grade for electives is a C. If a grade of B- or lower is earned in a core course, the student must retake the course and achieve a B or better. You will not be permitted to continue into HCI Project I if you do not pass Fall Core Courses. If a grade of C- or lower is earned in an elective course, the course cannot be counted toward the 5 electives; the student must either retake the course and earn a C or better, or take another approved elective.

Additionally, all students must maintain a QPA of 3.0 or above to remain in good standing in the program.

Additionally, courses in a sequence (e.g., HCI Project I & II) must have a B in HCI Project I to continue to HCI Project II.

## **Grading Standard**

All courses offered by the MHCI program are graded on the 4.3 Graduate Student Grading Standard described in full at <https://www.cmu.edu/policies/student-and-student-life/grading.html>. Undergraduate courses taken as electives or place out courses will be graded on the Undergraduate Grading policy as described on the same web site.

Graduate courses are subject to the +/- grades, while undergraduate courses receive only a letter grade, and all grades will be factored into the student's QPA accordingly.

## **Courses outside the department and grading**

Students are encouraged to take courses outside the department. These courses will generally be electives. Only those courses approved by the Director of MHCI Student Affairs will count toward the completion of the degree.

## **Transfer credits**

The MHCI program does not accept transfer credits from other institutions. However, a student who has taken a course at CMU prior to entering the MHCI program may request that the course be counted toward his/her degree requirements as long as the course does not count toward the graduation requirements of another degree. Application of such courses toward the MHCI degree is at the discretion and upon written approval of the Program Directors, and is not guaranteed or common.

## **Adds/Drops**

Students taking undergraduate and Master's level courses must follow the procedures and deadlines for adding, dropping, or withdrawing from courses as identified on the academic calendar. Information can be found at <https://www.cmu.edu/hub/registrar/course-changes/index.html>. There is a separate calendar for doctoral level courses.

Scheduling changes must be made within the period in the semester as established in the Academic Calendar. A student cannot drop a course simply by notifying the instructors involved or by ceasing to attend class(es). A student dropping all of his/her courses (with the intent of leaving the university) must file an Application for Withdrawal of an Application for Leave of Absence.

To add or drop a course after the Add/Drop/Withdraw deadlines, or to drop below 36 units, MHCI students must meet with the Director of MHCI Student Affairs.

## **Single Counting of Courses**

CMU students are not able to count the same course for their Bachelor's, Undergraduate minor, and/or Master's studies. For instance, if a CMU undergraduate takes Social Web as a part of their undergraduate studies, it would not count as an elective during their MHCI graduate studies. Similarly, a student in another CMU graduate program cannot have the same course count for both graduate degrees.

## **Incompletes**

In rare cases a faculty will issue a grade of "I" or Incomplete for a student's grade. In such a case the student has one academic term to complete the work and have the grade updated. If the work is not completed the grade will revert to the default grade issued at the time of entering the incomplete.

## **Academic Continuation**

### **Good Standing:**

A student is in good standing if they have made a B, 3.0, or higher on their core courses, they maintain an overall GPA of 3.0 or higher, and they are making good progress towards their degree as evidenced by meeting the academic and community expectations of the program.

### **Not in Good Standing:**

A student is not in good standing if they receive a B- or lower on any of their core courses, or if their overall QPA is below a 3.0. Students not on good standing are placed on Academic Probation for the following semester.

Any students on Academic Probation must maintain a B or above in *all* their courses, must have an overall QPA of 3.0 or above. Students who maintain the minimum grades are released from probation. Students on Academic Probation who don't maintain these minimum grades will be dropped from the program.

Students on Academic Probation in their final semester of study in the program can only graduate if they meet the graduation requirements of having a QPA of at least 3.0.

## **Absences and Tardiness**

The HCII views attendance as an individual student responsibility. Students are expected to attend classes, task and team meetings, presentations, seminars, and so forth. For meetings where the student's absence could hinder the performance of the group, such as task meetings, team meetings and group presentations, it is the student's responsibility to provide satisfactory evidence to faculty of the course, and the Director of MHCI Student Affairs and/or the Program Director to substantiate the reason for the absence. Among the reason's absences are considered excused by the program are the following:

- Death or major illness in a student's immediate family. Immediate family refers to: mother, father, sister, brother, grandparents, spouse, child. If unclear, check with the Director of MHCI Student Affairs in advance of your absence.
- Illness of a dependent family member.
- Illness that is too severe or contagious for the student to attend (to be determined by Health Center or off-campus physician).
- Approved conference attendance.
- Students in HCI Project I & II should not make any travel plans in advance of getting absences approved by faculty mentors and program directors.

*For other classes, arrangements should also be made in advance of absence and communicated with the instructor. Individual courses have specific attendance policies on course syllabi, please check with faculty/course syllabi for specifics.*

## Time Off

MHCI students are expected to attend all classes and participate in all program activities throughout the program. This excludes any defined academic break periods, and the official University holidays as listed below. For the most up-to-date University calendar, please refer to the HUB at <https://www.cmu.edu/hub/calendar/index.html>

Official University Holidays:

- New Year's Day
- Martin Luther King Jr Day
- Memorial Day
- Juneteenth
- Independence Day
- Labor Day
- Thanksgiving Day
- Day After Thanksgiving
- Day Before Christmas
- Christmas Day
- Day Before New Year's Day

## Leaves of Absence

Students who wish to leave their program temporarily may request a leave of absence by submitting a request to the Director of MHCI Student Affairs. If granted, leaves are initially extended for a period of no more than one year. However, an extension of up to one additional year may be granted under exceptional circumstances. When an extension is granted, the conditions for return must be negotiated with the Director of MHCI Student Affairs and approved by the program directors prior to returning to the program. Students should be in good standing in order to be granted a leave of absence.

Students on leave of absence must contact the Director of MHCI Student Affairs two months prior to the end of the leave to indicate their plans to return. While a leave can, in principle, start at any time, university regulations allow students to return only at the beginning of a semester (usually late August or January).

Withdrawal or voluntary leave of absence requires that a student file a Withdrawal/Leave of Absence form with the HUB, after securing the appropriate signature approvals. Return from withdrawal or voluntary leave of absence requires department or College approval through a Request for Return from Leave of Absence form.

## Withdrawal of Degree

University Policy <https://www.cmu.edu/policies/student-and-student-life/withdrawal-of-a-degree.html>

## **Statute of Limitations**

The MHCI degree is generally expected to be completed in one year. Part-time student is approved on a case-by-case basis for domestic students.

The AMHCI is expected to be completed following the successful completion of the bachelor's degree in a spring term, graduate status for summer and fall; with a successful fall completion date.

As outlined in the Master's Students Statute of Limitations, <https://www.cmu.edu/policies/student-and-student-life/masters-students-statute-of-limitations.html> students will complete all requirements for the master's degree within a maximum of seven years from original matriculation as a master's student, or less if required by a more restrictive department, school or college policy. Once this time-to-degree limit has lapsed, the person may resume work towards a master's degree only if newly admitted to a currently offered master's degree program under criteria determined by that program. Under extraordinary circumstances, such as leave of absence, military or public service, family or parental leave, or temporary disability, a school or college may, upon the relevant department's recommendation and with the written approval of the dean (or designate), defer the lapse for a period commensurate with the duration of that interruption. Students who are pursuing a master's degree as part-time students for all semesters of their program, as approved by their program, may also appeal to their program or department for extension of the time to degree limit.

## **Appeal Process**

### **Process for Appealing Final Grades**

<https://www.cmu.edu/student-affairs/theword/academic/appeal-of-grades-and-academic-actions.html>

Final grades will be changed only in exceptional circumstances and only with the approval of the instructor and the department, unit or program. Grading is a matter of sound discretion of the instructor and final grades are rarely changed without the consent of the instructor who assigned the grade. The following circumstances are the unusual exceptions that may warrant a grade appeal: (a) the final grade assigned for a course is based on manifest error (e.g. a clear error such as arithmetic error in computing a grade or failure to grade one of the answers on an exam), or (b) the faculty or staff member who assigned the grade did so in violation of a University policy.

### **Final Grade Appeal**

As per CMU policy, a graduate student who believes a final grade assigned for a course is based upon a manifest error (e.g., clear error such as arithmetic error in computing a grade) or the faculty or staff member who assigned the grade did so in violation of a University policy, should first present the case informally to the faculty or staff member responsible for the course in which the student believes an inappropriate grade has been awarded. If the student is not satisfied with the resolution at this first

step, the student shall submit a formal, written appeal, with appropriate documentation, within the first fourteen (14) days of the semester following the awarding of the final grade under challenge, to the head of the department in which the course was offered. The department head (or the program head if the department head chooses to delegate the decision to him/her) will issue a written decision on the appeal within 30 days, or as soon thereafter as practical. If the student is not satisfied with the decision of the department head (or program head), the student may submit a formal, written appeal, with appropriate documentation, within seven (7) days to the Dean of the College in which the course is offered. The Dean shall render a decision within 30 days, or as soon thereafter as practical. The decision of the Dean shall be final and not appealable.

### **Summary of Graduate Student Appeal and Grievance Procedures**

<https://www.cmu.edu/graduate/policies/appeal-grievance-procedures.html>

This webpage summarizes processes available to graduate students who seek review of academic and non-academic issues. Generally, graduate students are expected to seek informal resolution of all concerns within the applicable department, unit or program before invoking formal processes. When an informal resolution cannot be reached, however, a graduate student who seeks further review of the matter is to follow the formal procedures outlined here.

These appeal and grievance procedures shall apply to students in all graduate programs of the University. Students should refer to the department specific information in this handbook for department and college information about the administration and academic policies of the program.

**Graduate Student Ombudsman:** Office of Graduate and Postdoc Affairs, [graded@andrew.cmu.edu](mailto:graded@andrew.cmu.edu)

## **MHCI Path of Escalation**

*for appeals, issues, and/or conflicts*

This is provided for further clarity on how to move through difficult situations during your time here at the MHCI. These examples are for illustrative purposes and are not to be taken as the only possible situations that the escalations apply in. In any of these cases you are welcome to reach out to the MHCI Director of Student Affairs, Nicole Willis, to consult on a course of action or who to go to for further assistance.

### **Personal Issue:**

*Student → Director of MHCI Student Affairs → with referral to other appropriate resources*

Examples:

A student has a death in the family or a family member who is ill and will be absent.

A student has a physical or mental health issue that may impact their attendance/participation in a class and/or the program.

### **Grade/Faculty/Course Issue:**

*Student → Faculty → MHCI Director/MHCI Student Affairs Director → Department Head → Dean*

Examples:

A student has an issue with the grade or assignment in a course they are enrolled in.

A student has an issue with a team in a course assignment.

### **Team or Peer Issue/Conflict:**

*Student/Team → MHCI Director/MHCI Student Affairs Director → Student Affairs Liaison → Grad Ed Office*

Examples:

A student feels that team member(s) aren't fulfilling their responsibilities and are "slacking."

A student feels that s/he is being discriminated against or harassed by another student(s)

## Academic Integrity

<https://www.cmu.edu/policies/student-and-student-life/academic-integrity.html>

The policy includes the University expectations around academic integrity and provides definitions of cheating, plagiarism, and unauthorized assistance.

A review of the University's Academic Disciplinary Actions procedures <https://www.cmu.edu/student-affairs/theword/academic-discipline/index.html> is also recommended. These procedures outline the process for investigating, reporting, and adjudicating violations of the University Policy on Academic

## Disciplinary Action for Cheating and Plagiarism

While there is a university-wide disciplinary committee that handles serious disciplinary matters referred to it, the responsibility for establishing disciplinary guidelines rests with each department. The following set of rules will be uniformly and fairly applied in the Human- Computer Interaction Institute.

First, cheating in any form is not permitted as an ethical or professional behavior and will not be tolerated. Cheating includes, but is not necessarily limited to:

The use of unauthorized materials including artwork or images or computer programs in preparation of an assignment or during an examination.

The submission or use of falsified data.

The submission of work that is not the student's own.

Plagiarism- use or close imitation of the language and thoughts of another author and the representation of them as one's own original work. (See below)

The use of an alternate/stand-in/proxy during an examination.

Supplying unauthorized data to another student for the preparation of an assignment or during an examination.

Collaboration in the preparation of an assignment, unless specifically required or allowed by the instructor, will usually be viewed as cheating. Each student, therefore, is responsible for understanding the policies of the instructor offering any course as they refer to the amount of help and collaboration permitted in preparation of assignments.

Should any student be found guilty of cheating on a quiz, exam, homework or project, at minimum a zero grade will be recorded and then averaged in with the other grades (should there be any) for the term. Depending on the circumstances, and at the discretion of the instructor and the Department Head, the student may be failed in the course and may be expelled from the University. In any case, the University will be notified of *any* case of cheating or plagiarism. A repeated occurrence of cheating will be treated as an automatic failure (R grade) and expulsion from the University.

A subtler form of cheating arises in the form of plagiarism, which is defined as "passing off as one's own, the ideas or works of another." Making use of reference material and failing to note (either at all or properly) the original source constitutes plagiarism. When two or more people work together on an individual project and each then turns in his/her individual report as though no collaboration was involved, this also is plagiarism. Simply rewriting another's words or thoughts, or rearranging another's materials, is in every sense plagiarism - unless the student properly and completely references such material, each and every time it is used and to the full extent of usage.

Should a case of plagiarism arise, the initial responsibility for judging the seriousness of the offense will rest with the instructor. If the instructor feels that the student was simply sloppy in referencing the material used and plagiarized, a judgment of sloppy professionalism rather than cheating will be made. The grade for the paper, project or thesis will be lowered by at least one grade point. On the other hand, if the instructor feels that the student plagiarized flagrantly, and intentionally meant to mislead the instructor into thinking that the work was the student's own original work, the grade for the report or project will be recorded as zero.

It should be emphasized that any group collaboration that involves individual take-home projects, papers or theses should be carried out only with considerable discretion. That is, students are encouraged to discuss and collaborate among themselves on the various principles which are expounded in class or covered in the reading material, etc.; but any group discussion or collaboration which involves any specifics of take-home projects or papers should be avoided - unless the ideas or efforts of others are properly noted. Put differently, when individual work and thinking is called for, group thinking and/or work is entirely inappropriate and is a form of plagiarism.

In any case of cheating or plagiarism, the student may request a review of the instructor's decision by the department head, who will then make the final decision for the department. The student, of course, can appeal any faculty decision to the University Committee on Discipline. In a case of flagrant cheating by a graduate student on a thesis, the matter will be forwarded to the Disciplinary Committee for stronger action.

## MHCI Professional Development Funding

MHCI students in good academic standing could work on their professional development with financial support from the department. Funding support will be announced each year and is dependent on current budgetary guidelines from the university. An approved conference list is provided to the cohort each year due to the changing nature of the academic schedule. An approved list of tools and professional development opportunities will be provided with the approved conference list. A student may propose a conference, organization or tool not on the original list to both Nicole Willis and Jennifer McPherson for review. Students must gain approval via email in advance of the conference. Please note: The minimum requirement is three weeks prior to the conference start date. The MHCI reserves the right to refuse reimbursement and/or approval should the following not be adhered to;

Students attending a conference and submitting for reimbursement may do so if they meet the following requirements:

- In good academic standing
- Select from the list of conferences approved for 2023 -2024, professional development tools and/or organizations
- Must be attended or subscribed to and reimbursed during time in-residence
- Part-time students may only receive this support one time

Additional **Conference Funding** is a funding application process provided by GSA and the Provost's Office for students, student work groups or groups to attend a conference, whether as a participant or as a presenter. The process is managed by the Office of Graduate and Postdoc Affairs. Students can find more information about the application process and deadlines at: <https://www.cmu.edu/graduate/professional-development/index.html>.

## Community and Citizenship

Our sense of community is well-known as a distinguishing aspect of the HCI Institute and the School of Computer Science at Carnegie Mellon. It is one of the reasons many students choose to come here. The Institute is proud of our strong community spirit, which we foster through close working relationships between students and advisors, among faculty, and among students. Many working relationships turn into friendships for life.

Our community works. People volunteer their time, energy, intellect, talent, and other skills to do many of the things that keep our environment running smoothly. These efforts include organizing academic activities, serving on departmental committees, planning and running social activities, giving tours, hosting visitors, and a few other tasks. Students are expected as a normal course of their studies to contribute to this community in appropriate ways. Some of the many ways to contribute include:

### Attending Seminars

The Human-Computer Interaction Institute sponsors seminars by leading researchers from within and outside Carnegie Mellon, which are attended by faculty, staff and graduate students. While

not strictly a requirement, students are strongly encouraged to attend these talks, and meet and interact with visiting scholars. This is extremely important, both to get a sense of the academic and industry projects that are pursued outside of Carnegie Mellon and to get to know the leaders of such projects. There are also a wide variety of relevant and interesting seminars outside the HCI (in other departments in SCS and elsewhere in the university) that students should consider attending.

### **Mentoring and Assistance**

There will be many opportunities for students to play a mentorship/assistance role to both students in their year or below, and even above their year, as well as faculty and staff. This occurs in classes through asking questions and contributing to group discussions. It occurs from having some expertise that others can leverage (e.g., visual design), or general expertise in HCI (being able to comment on a practice talk, reading a colleague's paper) that can be leveraged. Students should make themselves available for opportunities such as these and help wherever possible. Just as students come to other students for assistance, students should also call on faculty, to best leverage the incredible resources we have in the HCI. This of course works both ways: not only should students help when requested, but if a student identifies a piece of research or paper that could be of use to another member of the department, they should pass it on to that person. In order to do so, students should be roughly familiar with the research interests and goals of other students and faculty in the department.

In addition to academic support, students and faculty should also be available for moral support. We expect the very best of our students, staff and faculty, and, at times, this can be overwhelming and stressful. Being able to listen to others about issues they have is an important part of providing mentorship and assistance.

### **Volunteering**

Occasionally, there are times when the department/school/university requests your assistance with activities. Students are asked to volunteer/step up to take on these volunteer tasks, when they can. In particular, we rely on our students to help us organize an exciting, attractive, and successful recruiting program for incoming master's students. You remember best what worked to attract you, and you are our best advertisement for the department.

Similarly, if students identify an issue with courses, the program, the department, etc., they should notify the appropriate person to appropriately address it. Being a good citizen includes looking for ways to improve it, providing constructive criticism, and, in general, keeping it healthy.

## Safeguarding Educational Equity

### Assistance for Individuals with Disabilities

<http://www.cmu.edu/education-office/disability-resources/>

The Office of Disability Resources at Carnegie Mellon University has a continued mission to provide physical, digital, and programmatic access to ensure that students with disabilities have equal access to their educational experience. We work to ensure that qualified individuals receive reasonable accommodations as guaranteed by the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973. Students who would like to receive accommodations can begin the process through Disability Resources' secure online portal (<https://rainier.accessiblelearning.com/cmu/>) or email [access@andrew.cmu.edu](mailto:access@andrew.cmu.edu) to begin the interactive accommodation process.

Students with physical, sensory, cognitive, or emotional disabilities are encouraged to self-identify with the Office of Disability Resources and request needed accommodations. Any questions about the process can be directed to [access@andrew.cmu.edu](mailto:access@andrew.cmu.edu), or call (412) 268-6121.

### Policy Against Sexual Harassment and Sexual Assault

The University prohibits sex-based discrimination, sexual harassment, sexual assault, dating/ domestic violence and stalking. The University also prohibits retaliation against individuals who bring forward such concerns or allegations in good faith.

The University's Sexual Misconduct Policy is available at <https://www.cmu.edu/policies/administrative-and-governance/sexual-misconduct/index.html>

The University's Policy Against Retaliation is available at <https://www.cmu.edu/policies/administrative-and-governance/whistleblower.html>

If you have been impacted by any of these issues, you are encouraged to make contact with any of the following resources:

- Office of Title IX Initiatives
  - <http://www.cmu.edu/title-ix/>, 412-268-7125, [tix@cmu.edu](mailto:tix@cmu.edu)
- University Police
  - <https://www.cmu.edu/police/>, 412-268-2323

Additional resources and information can be found at: <https://www.cmu.edu/title-ix/resources-and-information/index.html>

## Consensual Intimate Relationship Policy Regarding Undergraduate Students

<https://www.cmu.edu/policies/student-and-student-life/consensual-relationships.html>

This policy addresses the circumstances in which romantic, sexual or amorous relationships/interactions with undergraduate students, even if consensual, are inappropriate and prohibited. The purpose of this policy is to assure healthy professional relationships. This policy is not intended to discourage consensual intimate relationships unless there is a conflicting professional relationship in which one party has authority over the other as in the policy.

## Gestational and Parental Accommodations

<https://www.cmu.edu/graduate/programs-services/maternity-accommodation-protocol.html>

Providing holistic student support is a top priority at Carnegie Mellon. The protocols on this page are designed to support the parental needs of students and their families.

Students seeking any of the Parental Accommodations described below must register with the Office of the Dean of Students by contacting the office for an appointment by calling 412-268-2075.

Students are encouraged to register with the Office of the Dean of Students ninety (90) days in advance of the anticipated arrival of the child as applicable in the individual circumstance. At the time of registering, students will have the opportunity to consult about resources, procedures, funding options and preparation for discussing academic accommodations with the student's academic department. Students should also consult with their academic advisors either before or in conjunction with registering with the Office of the Dean of Students.

### ***Accommodations for Gestational Parents***

The birth of a child is a significant life event that may require time away from academic pursuits for delivery and recovery from delivery of a newly born child. Students whose anticipated delivery date is during the course of a semester may need to take time away from their academic responsibilities. Carnegie Mellon students seeking time away are afforded two options as possible accommodation:

- **Short-Term Accommodation for Gestational Parents** – A short term absence from academic responsibilities up to a maximum of six (6) weeks. Short-Term Accommodation may be extended by two (2) weeks, for a total of eight (8) weeks, where a longer absence is medically necessary. Prior to the absence students must work with relevant university faculty and staff to adjust their course work, research, teaching and other academic responsibilities during the period of absence. This may include extensions of time to complete assignments, incomplete grades, and/or dropping courses, shifting research responsibilities and adjusting TA assignments. Students who take a Short-Term Accommodation will remain enrolled.
- **Formal Leave of Absence**– A formal leave of absence under the Student Leave Policy. Generally, the Student Leave Policy permits students to take a leave of absence for a full-semester, mini-semester, or for the time remaining in the semester during which the leave is taken. Students who take a Formal Leave of Absence (<https://www.cmu.edu/policies/student-and-student-life/student-leave.html>) drop all remaining courses for the semester and are unenrolled for the semester. International students must consult with the Office of International Education (<https://www.cmu.edu/oie/>) before considering this option due to visa implications.

### ***Financial Assistance for Student Parents***

Carnegie Mellon also offers the following options for financial assistance to students who become parents while enrolled:

**Interest Free Loan** – Any student who becomes a parent is eligible to apply for an interest-free parental loan (<https://www.cmu.edu/student-affairs/dean/loans/>) from the Office of the Dean of Students.

## **Additional department and university policies/protocols**

### **Change of Address**

Please keep your address and contact details up-to-date and accurate in SIO. This supports a university initiative to have accurate living information for students for official program/department/college/university notices, the ability to facilitate wellness checks, ensure international students are in compliance with visa requirements, etc.

## Appendix A

### Key Resources for Graduate Student Support

#### Office of Graduate and Postdoctoral Affairs

<https://www.cmu.edu/graduate>

graded@cmu.edu

The Office of Graduate and Postdoctoral Affairs provides university-wide support for all graduate students and academic programs, with a focus on supporting graduate student success at Carnegie Mellon. Examples of resources offered through the Office of Graduate and Postdoctoral Affairs include, but are not limited to:

- Website with university resources, contact information for CMU programs and services, possible financial assistance and potential funding opportunities, and various procedural and policy information
- Newsletter to all graduate students with information on activities, resources, and opportunities
- Professional development seminars and workshops, and various programming and events for the graduate student community

The Office of Graduate and Postdoctoral Affairs also works directly with the colleges and departments on issues related to graduate students and serve as a resource for developing policy and procedures. The Office of Graduate and Postdoctoral Affairs partners with many other offices and organizations, such as the Graduate Student Assembly, to support the holistic graduate student educational experience.

#### Office of the Dean of Students

<https://www.cmu.edu/student-affairs/dean/>

The Office of the Dean of Students provides central leadership of the metacurricular experience at Carnegie Mellon including the coordination of student support. Graduate students will find the enrollment information for Domestic Partner Registration and Parental Accommodations in the Office of the Dean of Students or on their website. This Office also manages the Student Emergency Support Funding process. There are currently three forms of support funding for enrolled students: emergency student loans, student parental loans, and the Tartan Emergency Support Fund. Inquiring students will be provided with additional information about the various types of funding during a consultation meeting with a member of the Dean of Students team. Tuition costs are not eligible for Student Emergency Support funding.

College Liaisons and the Student Support Resources team serve as additional resources for graduate students. College Liaisons are senior members of the Division of Student Affairs who work with departments and colleges addressing student concerns across a wide range of issues. College Liaisons are identified on the Important Contacts list in Student Information Online (SIO). The Student Support Resources team offers an additional level of support for students who are navigating a wide range of life events. Student Support Resources staff members work in partnership with campus and community resources to provide coordination of care and support appropriate to each student's situation.

## The Division of Student Affairs

The Division of Student Affairs includes (not an exhaustive list):

- Athletics, Physical Education and Recreation
- Career and Professional Development Center (CPDC)
- Center for Student Diversity and Inclusion
- Cohon University Center
- Counseling & Psychological Services (CaPS)
- Dining Services
- Office of Community Standards and Integrity (OCSI)
- Office of Student Leadership, Involvement, and Civic Engagement (SLICE)
- University Health Services (UHS)
- Wellness Initiatives
- 

## Center for Student Diversity & Inclusion

<https://www.cmu.edu/student-diversity/>

Diversity and inclusion have a singular place among the values of Carnegie Mellon University. The Center for Student Diversity & Inclusion actively cultivates a strong, diverse and inclusive community capable of living out these values and advancing research, creativity, learning and development that changes the world.

The Center offers resources to enhance an inclusive and transformative student experience in dimensions such as access, success, campus climate and intergroup dialogue. Additionally, the Center supports and connects historically underrepresented students and those who are first in their family to attend college in a setting where students' differences and talents are appreciated and reinforced, both at the graduate and undergraduate level. Initiatives coordinated by the Center include, but are not limited to:

- First generation/first in family to attend college programs
- LGBTQ+ Initiatives
- Race and ethnically focused programs, including Inter-University Graduate Students of Color Series (SOC) and PhD SOC Network
- Women's empowerment programs, including Graduate Women's Gatherings (GWGs)

## Assistance for Individuals with Disabilities

<https://www.cmu.edu/disability-resources/>

The Office of Disability Resources at Carnegie Mellon University has a continued mission to provide physical, digital, and programmatic access to ensure that students with disabilities have equal access to their educational experience. The Office works to ensure that qualified individuals receive reasonable accommodations as guaranteed by the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973.

Students who would like to receive accommodations can begin the process through Disability Resources' secure online portal or email [access@andrew.cmu.edu](mailto:access@andrew.cmu.edu) to begin the interactive accommodation Process.

Students with physical, sensory, cognitive, or emotional disabilities are encouraged to self-identify with the Office of Disability Resources and request needed accommodations. Any

questions about the process can be directed to [access@andrew.cmu.edu](mailto:access@andrew.cmu.edu), or call (412) 268-6121.

## Eberly Center for Teaching Excellence & Educational Innovation

<https://www.cmu.edu/teaching/>

The Eberly Center offers a wide variety of confidential, consultation services and professional development programs to support graduate students as teaching assistants or instructors of record during their time at Carnegie Mellon University and as future faculty members at other institutions. Regardless of one's current or future teaching context and duties, Eberly's goal is to disseminate evidence-based teaching strategies in ways that are accessible and actionable. Programs and services include campus-wide Graduate Student Instructor Orientation events and our Future Faculty Program, both of which are designed to help participants be effective and efficient in their teaching roles. The Eberly Center also assists departments in creating and conducting customized programs to meet the specific needs of their graduate student instructors. Specific information about Eberly Center support for graduate students is found at:

<https://www.cmu.edu/teaching/graduatestudentsupport/>

## Graduate Student Assembly

<https://www.cmu.edu/stugov/gsa/>

The Graduate Student Assembly (GSA) is the branch of Carnegie Mellon Student Government that represents and advocates for the diverse interests of all graduate students at CMU. GSA is composed of representatives from the different graduate programs and departments who want to improve the graduate student experience at the different levels of the university. GSA is funded by the Student Activities Fee from all graduate students. GSA passes legislation, allocates student activities funding, advocates for legislative action locally and in Washington D.C. on behalf of graduate student issues and needs, and otherwise acts on behalf of all graduate student interests. GSA's recent accomplishments are a testament to their making a difference, and steps to implementing the vision laid out by the strategic plan.

<https://www.cmu.edu/stugov/gsa/about-the-gsa/strategic-plan.html>

GSA offers an expanding suite of social programming on and off-campus to bring graduate students from different departments together and build a sense of community. GSA is the host of the Graduate Student Lounge on the 3rd floor of the Cohon University Center. GSA also maintains a website of graduate student resources on and off-campus. GSA continues to rely on student feedback to improve the graduate student experience at CMU. Feel free to contact them at [gsa@cmu.edu](mailto:gsa@cmu.edu) to get involved, stop by their office in the Cohon University Center Room 304 or become a representative for your department.

## Office of International Education (OIE)

<https://www.cmu.edu/oie/>

Carnegie Mellon hosts international graduate and undergraduate students who come from more than 90 countries. The Office of International Education (OIE) is the liaison to the University for all non-immigrant students and scholars, as well the repository for study abroad opportunities. OIE provides many services including: advising on personal, immigration, study abroad,

academic, and social and acculturation issues; presenting programs of interest such as international career workshops, tax workshops, and cross-cultural and immigration workshops; international education and statistics on international students in the United States; posting pertinent information to students through email and the OIE website and conducting orientation and pre-departure programs.

## Veterans and Military Community

<https://www.cmu.edu/veterans/>

Military veterans are a vital part of the Carnegie Mellon University community. Graduate students can find information on applying for veteran education benefits, campus services, veteran's groups at CMU, and non-educational resources through the Veterans and Military Community website. There are also links and connections to veteran resource in the Pittsburgh community. The ROTC and Veteran Affairs Coordinator can be reached at [urovaedbenefits@andrew.cmu.edu](mailto:urovaedbenefits@andrew.cmu.edu) or 412-268-8747.

## Carnegie Mellon Ethics Hotline

<https://www.cmu.edu/hr/resources/ethics-hotline.html>

The health, safety and well-being of the university community are top priorities at Carnegie Mellon University. CMU provides a hotline that all members of the university community should use to confidentially report suspected unethical activity, violations of university policy, or violations of law. Students, faculty and staff can anonymously file a report by calling 1-844-587-0793 or visiting <https://cmu.ethicspoint.com/>. All submissions are reported to appropriate university personnel and handled discreetly.

**The hotline is NOT an emergency service. For emergencies, call University Police at 412-268-2323.**

## Policy Against Retaliation

It is the policy of Carnegie Mellon University to protect from retaliation any individual who makes a good faith report of a suspected violation of any applicable law or regulation, university Policy or procedure, any contractual obligation of the university, and any report made pursuant to the Carnegie Mellon University Code of Business Ethics and Conduct.

Additional details regarding the Policy Against Retaliation are available at:

<https://www.cmu.edu/policies/administrative-and-governance/whistleblower.html>

## Key Offices for Academic & Research Support

### Computing and Information Resources

<https://www.cmu.edu/computing/>

Computing Services maintains and supports computing resources for the campus community, including the campus wired and wireless networks, printing, computer labs, file storage, email and software catalog. As members of this community, we are all responsible for the security of these shared resources. Be sure to review the Safe Computing (<https://www.cmu.edu/computing/safe/>) section and the University Computing Policy (<https://www.cmu.edu/policies/information-technology/computing.html>)

Visit the Computing Services website (<https://www.cmu.edu/computing/>) to learn more. For assistance the Computing Services Help Center is available at 412-268-4357 (HELP) or [ithelp@cmu.edu](mailto:ithelp@cmu.edu).

### Student Academic Success Center

<https://www.cmu.edu/student-success/>

The Student Academic Success Center's (SASC) work to support success focuses on creating spaces for students to engage in their coursework and approach to learning through many group and individual program options. SASC supports student success by providing academic coaching, subject-specific tutoring, effective communication strategies, accommodations for students with disabilities, and language support for multilingual learners. SASC engages with faculty and staff to improve the coordination and professional development for academic advisors. Visit the SASC website for more information about services offered in areas such as communication and language support; language and cross-cultural support; and learning support.

### University Libraries

<https://www.library.cmu.edu/>

The University Libraries offers a wide range of information, resources, and services supporting graduate students in coursework, research, teaching, and publishing. The library licenses and purchases books, journals, media, and other needed materials in various formats. Library liaisons, consultants, and information specialists provide in-depth and professional assistance and advice in all-things information, including:

- Locating and obtaining specific resources
- Providing specialized research support
- Advanced training in the use and management of data

Sign up for workshops and hands-on topic-specific sessions such as data visualization with Tableau, cleaning data with OpenRefine, and getting started with Zotero. Weekly drop-in hours for Digital Humanities and for Research Data Research Management are scheduled during the academic year. Start at the library home page to find the books, journals, and databases you need; to identify and reach out to the library liaison in your field; to sign up for scheduled workshops; and to connect with consultants in scholarly publishing, research data management, and digital humanities.

### Research at CMU

<https://www.cmu.edu/research/>

The primary purpose of research at the university is the advancement of knowledge in all fields in which the university is active. Research is regarded as one of the university's major contributions to society and as an essential element in education, particularly at the graduate level and in faculty development. Research activities are governed by several university policies. Guidance and more general information are found by visiting the Research at Carnegie Mellon website.

## Office of Research Integrity & Compliance

<https://www.cmu.edu/research-compliance/>

The Office of Research Integrity & Compliance (ORIC) is designed to support research at Carnegie Mellon University. The staff work with researchers to ensure research is conducted with integrity and in accordance with federal and Pennsylvania regulation. ORIC assists researchers with human subject research, conflicts of interest, responsible conduct of research, export controls, and institutional animal care & use. ORIC also provides consultation, advice, and review of allegations of research misconduct.

## Key Offices for Health, Wellness & Safety

### Counseling & Psychological Services

<https://www.cmu.edu/counseling/>

Counseling & Psychological Services (CaPS) affords the opportunity for students to talk privately about academic and personal concerns in a safe, confidential setting. An initial consultation at CaPS can help clarify the nature of the concern, provide immediate support, and explore further options if needed. These may include a referral for counseling within CaPS, to another resource at Carnegie Mellon, or to another resource within the larger Pittsburgh community. CaPS also provides workshops and group sessions on mental health related topics specifically for graduate students on campus. CaPS services are provided at no cost. Appointments can be made in person, or by telephone at 412-268-2922.

### Health Services

<https://www.cmu.edu/HealthServices/>

University Health Services (UHS) is staffed by physicians, advanced practice clinicians and registered nurses who provide general medical care, allergy injections, first aid, gynecological care, and contraception as well as on-site pharmaceuticals. The CMU Student Insurance Plan covers most visit fees to see the physicians and advanced practice clinicians & nurse visits. Fees for prescription medications, laboratory tests, diagnostic procedures and referral to the emergency room or specialists are the student's responsibility and students should review the UHS website and their insurance plan for detailed information about the university health insurance requirement and fees. UHS also has a registered dietician and health promotion specialists on staff to assist students in addressing nutrition, drug and alcohol and other healthy lifestyle issues. In addition to providing direct health care, UHS administers the Student Health Insurance Program. The Student Health Insurance plan offers a high level of coverage in a wide network of health care providers and hospitals. Appointments can be made by visiting UHS's website, walk-in, or by telephone, 412-268-2157.

### Campus Wellness

<https://www.cmu.edu/wellness/>

At Carnegie Mellon, we believe our individual and collective well-being is rooted in healthy connections to each other and to campus resources. The university provides a wide variety of wellness, mindfulness and connectedness initiatives and resources designed to help students thrive inside and outside the classroom.

## Religious and Spiritual Life Initiatives (RSLI)

<https://www.cmu.edu/wellbeing/resources/religious-spiritual/index.html>

Carnegie Mellon is committed to the holistic growth of our students, including creating opportunities for spiritual and religious practice and exploration. RSLI has relationships with local houses of worship from various traditions and many of these groups are members of CMU's Council of Religious Advisors. They also offer programs and initiatives that cross traditional religious boundaries in order to increase knowledge of and appreciation for the full diversity of the worldview traditions. RSLI staff are available to support students across the spectrum of religious and spiritual practice and would be more than happy to help you make a connection into a community of faith during your time at CMU.

## University Police

<https://www.cmu.edu/police/>

x2323

The University Police Department is located at 4551 Filmore Street. The department's services include police patrols and call response, criminal investigations, fixed officer and foot officer patrols, event security, and crime prevention and education programming as well as bicycle and laptop registration. Visit the department's website for additional information about the staff, emergency phone locations, crime prevention, lost and found, fingerprint services, and annual statistic reports. Carnegie Mellon University publishes an annual campus security and fire safety report describing the university's security, alcohol and drug, sexual assault, and fire safety policies. The report also contains statistics about the number and type of crimes committed on the campus and the number and cause of fires in campus residence facilities during the preceding three years. Graduate students can obtain a copy by contacting the University Police Department at [x2323](tel:x2323). The annual security and fire safety report is also available online at:

<https://www.cmu.edu/police/annualreports/>

## Shuttle and Escort Services

<https://www.cmu.edu/parking/transport/>

Parking and Transportation coordinates the Shuttle Service and Escort Service provided for CMU students, faculty, and community. The Shuttle & Escort website has full information about these services, stops, routes, tracking and schedules.

The WORD

<https://www.cmu.edu/student-affairs/theword/>

The WORD is Carnegie Mellon University's online student handbook and serves as the foundation for the department (and sometimes college) handbook. The WORD contains university-wide academic policy information and resources, community policies and resources, and describes the university level procedures used to review possible violations of these standards. It is designed to provide all students with the tools, guidance, and insights to help you achieve your full potential as a member of the Carnegie Mellon community. Graduate students are encouraged to bookmark this site and refer to it often. University policies can also be found in full text at: <https://www.cmu.edu/policies/>.

## Student Acknowledgement Page

The MHCI Student Handbook has been prepared for your information and understanding of the policies, philosophies and practices of the MHCI and HCII at Carnegie Mellon University. Please read it carefully. Upon completion of your review of the handbook, sign the statement below, and return it to the Director of MHCI Student Affairs by the due date. A copy of this acknowledgment appears at the back of the handbook for your records.

By signing, you are stating that you have read a copy of the MHCI Student Handbook and that you acknowledge, understand, accept, and agree to comply with the information and guidelines contained therein, and all references to external information (i.e. links to webpages with additional information).

You understand this handbook is not intended to cover every situation that may arise during your course of study, but is simply a general guide to the goals, policies, practices, and expectations of the MHCI.
